

Amity - Responsive Bootstrap Template v1.1

Overview

Thanks for downloading Amity v1.1. This template has been optimized for use on all major devices and browsers. Here is an overview of the features available in this theme.

Creator: Nathaniel Deal LLC

Support: hello@nathanieldeal.com

Created Date: 3/20/2015

Style Variations

Color Variations

The template color css files are located in html/css/colors. There are currently 5 color variations to choose from. To change the color theme, locate this section in the head and change `default.css` to a color that is available in the css/colors folder.

```
<!-- CSS -->
<link href="css/bootstrap/bootstrap.min.css" rel="stylesheet">
<link href="css/font-awesome/font-awesome.min.css" rel="stylesheet">
<link href="css/animate.css/animate.min.css" rel="stylesheet">
<link href="css/jquery-prettyPhoto/css/prettyPhoto.css" rel="stylesheet">
<link href="css/main.css" rel="stylesheet">
<!-- Custom Template Color -->
<link href="css/colors/default.css" class="switch-style" rel="stylesheet">
```

Header Variations

The template currently has 2 header variations available, light and dark. The default color is light. To enable the dark variation located this section and add the class `dark` to the "navbar-wrapper" div.

```
<!--Begin Navigation-->
<div class="navbar-wrapper dark">
  <div class="container">
```

Footer Variations

The template currently has 2 footer variations available, light and dark. The default color is dark. To enable the light variation located this section and add the class `light` to the “footer-top” div.

```
<!--Begin Footer Section-->
<footer>
  <div class="footer-top light">
```

Plugins

Animate.css

To use animations, simply add the class `animated` to an element, along with any of the animation class names. View the complete list of animation [here](#).

```
<div class="carousel-caption col-sm-6">
  <h1 class="title animated fadeInLeft"><span>Responsive Content,</span>
  <p class="animated fadeInLeft">Lorem ipsum dolor sit amet, consectetur
</p>
  <p><a class="btn btn-lg btn-default animated fadeInLeft" href="#" ro
```

Responsive Videos

To enable as responsive video from an external source such as YouTube or Vimeo, wrap the video within a div and add the class “responsive-video”.

```
<div class="carousel-image col-sm-6">
  <div class="responsive-video animated bounceInUp hidden-xs">
    <iframe src="//player.vimeo.com/video/87701971" width="500"
  </div>
</div>
```

Stellar.js Parallax

To enable a parallax background on a div, you must first set the bg using css and its position to fixed. Then add `stellar-background-ratio` and an offset to the container div. See a full list of options for Stellar.js [here](#).

```

<!--Begin Featured Section-->
<div class="featured with-bg" data-stellar-background-ratio="1.25">
  <div class="container">
    <div class="row">

```

Pretty Photo Lightbox

To add a lightbox to option to an link, add `rel="prettyPhoto"` to the image container and set the href to the full size image. You can also create a gallery by adding shared gallery name to `rel="prettyPhoto[gallery_name]"` tag on each link. Learn more about the settings [here](#).

```

img/gallery/by-the-peir.jpg" class="img-overlay" rel="prettyPhoto[folio_gal]">
img class="img-responsive" src="img/gallery/by-the-peir.jpg" alt="By The Peir"
i class="fa fa-plus-circle"></i>

```

MixItUp Portfolio Layout

This plugin allows you to sort and display items in the portfolio that are in common. First you'll need to setup the filters and add the name of the class to be filtered by adding `data-filter=".class_name"` to the link tag.

```

/ nav-pills controls" role="tablist">

  <a href="#" class="btn btn-color filter active" data-filter="all">All</a>

  <a href="#" class="btn btn-color filter" data-filter=".travel">Travel</a>

```

Next you'll setup the layout to be filtered by adding `class_name` to each of the corresponding items in in the portfolio. You can learn more about customizing your portfolio [here](#).

```

<li class="mix beautiful lifestyle">
  <a href="portfolio-single.html" class="img-overlay">
    <img class="img-responsive" src="img/gallery/beyond-the-ti

```

Template Layout

This template is composed of 6 main sections which are **Top, Header, Carousel, Main Content, Footer Top & Footer Bottom**. The use of these sections are clearly indicated throughout the pages as HTML Comments.

Less Pre-Processor

This template is composed using a **Less preprocessor**. Less extends CSS with dynamic behavior such as variables, mixins, operations and functions. The Less files are located in `html/less` if you would like to use them to edit the template CSS.

Fonts

This template uses the Open Sans typeface from [Google Fonts](#). If you would like to change the fonts, replace the `@import` section located at the top of `html/css/main.css`.

```
@import url(http://fonts.googleapis.com/css?family=Open+Sans:300,400,600,700);
```

Icons

This template uses the Font Awesome library and all of the available fonts are located on the `feature-icons.html` page. For more information about how to implement icons visit [here](#).

Image Attribution

The images used in this template are from [Unsplash](#), [Little Visuals](#) & [Flickr](#) under the creative commons license.
